MEMORANDUM FOR LITHUANIA MINISTRY OF NATIONAL DEFENCE

FROM: SOCEUR-SOJ35 Central Desk

SUBJECT: Endorsement of Rokai Range Training Complex Expansion

1. The use of Plk. I. Musteikio Range Training Complex will provide valuable training facilities for U.S. Special Operations Forces (SOF) to conduct interoperability with Lithuanian and other NATO partners. The range complex has the potential for further enhancement if expanded into approximately 250 ha of the adjacent Razeliai Forest. The Lithuanian government owns the forest and has offered to expand the range to allow for the construction of a 900 m firing range and new tactical training fields, if this is valuable to NATO partners. This expansion would be at zero cost to the United States Government.
2. This letter is to affirm that the U.S. acknowledges the increased training opportunities for NATO SOF if the project is approved and would find value in such an expansion.
3. POC for this memorandum is the undersigned at [maxim.kuemmerlein@socom.mil](mailto:maxim.kuemmerlein@socom.mil).
